"I was so weak I did not have breath to walk across my room," writes Miss isbell Miller, of New Miss isbell Miller, of New Providence, Calloway Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I could not tell when they were coming on but they left me very weak. My stomach would last for several hours. I did not gain strength from one monthly period to another; was very weak and nervous all the time. I was advised by a kind friend to try Dr. Pierce's Paworite Prescription, which I did and before I had taken two bottles of it I could work all day. I took it all six bottles of the 'Pavorite Prescription' and about five bottles of Dr. Pierce's Pellets. I used no other medicine. I have never had a return of this trouble since, and never can praise Dr. Pierce's medicines enough, for I know they saved my life."

INFANT DAMNATION."

The following was written to a newsp*per many years ago by the late Dr. J J. Bullock, at one time pastor of the Second Presbyterian Church in this

"The doctrine of the damnation of infants is eliminated by the assembly's committee on revision from the Confession of Faith of the Presbyterian Church."

Such is the announcement made by quite a number of newspapers in their notices of the action of the committee. This statement is misleading, as there is no such doctrine taught in the Con-fession of Faith. The common belief of all true Presbyterians is that all infants

people--with one accord so interpret people—with one accord so interpret it. I have had a large personal ac-quaintance with many distinguished Presbyterians, in all perts of the coun-try, for more than fifty years and I have never met with one who be-lieved in the doctrine of infant dammation, or that it was taught in our Con-fession of Faith. Whatever mey have been the views of some persons outside of our ecclesiastical connection, I deny most emphatically that this repulsive doctrine is taught in our Confession of Faith, or that it has been taught by any minister or author of standing in nection with the Presbyterian Church in these United States. To this broad statement I challenge contradiction.
Until this can be done, he who makes the statement lays himself open to the charge of libeling the grand old historical church, which has stood in the forefront of every great battle where the interests of Christ's cause and kingdom were involved. The worst that any

candid man can say of our confession on this subject is that it does not profess to determine whether all infants are saved It gives not the slightest intimation that any are lost. It is a strange spectacle to see ministers of the Gospel who have solemnly adopted this confession as their confession, and who have pledged themselves to teach its doctrines, expending their energies in trying to make it odious in the eyes of men, and even to resort to misrepresentation to accomplish their purpose. That confession is built upon the bedrock of Scripture, and it cannot be overturned. The gates of hell cannot prevail against this church. She is impregnable and invincible. Her glittering spire rise higher and higher, and her bulwarks breathe defiance to all her numerous

foes, both internal and external.
Upon my personal and official responsibility as a man, and as a Presbyterian minister of the Gospel of more than filty years' standing, I most emphatically deny the charge that the doctrine of infant dampation is taught in our Confession of Faith or has ever been preached by our ministers or believed by our peo-J. [COMMUNICATED. By today's papers every citizen asertained that one of the greatest indusries in the United States has been stopped; and the people in power say over-production. What causes this over-production? By the republican form of government. You can read in the daily papers that the country never was in such a prosperous condition still thousands are idle. If a country is in a flourishing condition why should there be idleness? It is not that, but it is this: Take "several special" capi-

talists and run them abroad year after year and they import stuff at a cheap rate, that throws the "poor devil" out of work who has to pay for protection. The people of this country now realize the position. Work becomes harder and longer, while wages become le's; hence the present condition. If this thing keeps up much longer what will be the condition of this country in

Remarkable Cure of Rheumatism,

Kenns. Jackson county, W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. DOES IT PAY TO BUY CHEAP? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dargerous results of throat vere and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possi-ble for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Bos-chee's German Strun" It not only chee's German Syrup." It not only heals and stimulates the tissues to de-stroy the germ disease, but allays in-fl-mmation causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years ago by all druggists in the world. For sale by Ernest L. Allen, Claud M. Lennon, Warfield & Hall, Charles G. Lennon, W. F. Creighton & Co., and Richard
